

# Comprehensive EAR & HEARING

Zeeland • Holland • Grand Haven

Dear Educator,

We know your job is not a quiet one. Between loud students, echoing hallways, school events and lockers opening and closing repeatedly, your ears go through a daily auditory assault.

Studies show that teachers have a higher rate of hearing loss than workers overall, and a larger percentage of young teachers are diagnosed with hearing loss than younger workers in general.

The good news is that Comprehensive Ear & Hearing offers **special pricing** to those with **MPSER's insurance** and **MESSA insurance provides excellent coverage for hearing aids**.

We're sure that you're aware that the MPSER's insurance benefits have changed. If you currently have the MPSER's insurance, your new benefits encourage you to go through TruHearing for hearing services, but the hearing instrument options offered through TruHearing are extremely limited.

Due to the restrictive nature of the TruHearing benefits, **we've worked with our hearing aid manufacturers to come up with a pricing structure that includes hearing instruments comparable to what you can choose with TruHearing; but with the same great service that Comprehensive Ear & Hearing is known to provide.**

**There's no need to call TruHearing.** If you, a friend, or loved-one have questions about your hearing benefits, are considering new technology or are ready to treat hearing loss for the first time, please call us in Zeeland at [\(616\) 772-1986](tel:6167721986) or Grand Haven at [\(616\) 847-3144](tel:6168473144).

We can provide you with a FREE hearing test and answer any questions you may have about how our the CEH MPSER's hearing plan compares to TruHearing.

We look forward to seeing you in our office soon!

Warmest Regards,  
Carli Van Harken, HIS, Owner  
Kristin Johnston, BA, BC-HIS, Owner

**A word from CEH clients:** "Carli was so helpful! She got me tested and a new set of hearing aids even though my insurance would not cover them! At CEH, I got better hearing aids at a price comparable to other local TruHearing audiology providers. And the service at CEH is so much better! Thank you so much!" Lee W. - Zeeland, MI

"I switched to Comprehensive Ear & Hearing because I wanted a clinic that would be willing to take plenty of time with me to make certain that my hearing aids were properly adjusted to meet my various hearing needs. I have not been disappointed!" Jeff W. - Whitehall, MI

**We listen, so you can hear the important things in your life.**
